

OUR MISSION

To provide exceptional service through systems, processing, and reporting of crop insurance information with a personal commitment to our agents. We utilize efficient, cutting-edge technology to provide service that is accurate and timely, thereby helping to secure our producers, agents, and team members a better quality of life.

"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all."

Advanced AgProtection is an equal opportunity provider and employer.

ABOUT US

Our History

Advanced AgProtection is led by crop insurance professionals with nearly 200 years of combined crop insurance experience and a history of serving the American farmer.

Our experienced team is primed to lead by maintaining focus on what history has shown to be the most important elements of crop insurance:

- **Software is our specialty**, and our extensive, robust IT background and familiarity with industry software are leveraged to provide our agents with innovative and useful tools that we will continue to develop as the market evolves.
- **Customer service is of utmost importance**, and we focus heavily on timely, accurate claim payments.

Our Technology

We utilize cutting-edge software and provide exceptional service.

At the heart of our technology resources is the Advanced AgProtection Policy Processing System, also known as “Advanced APPS,” which is the system we use to service crop insurance policies. Advanced AgProtection has partnered with the industry-leading processing system, AgWorks, to bring agents and insureds the very best when it comes to processing your whole book of business.

Our Team

In a constantly evolving industry, it’s critical to develop products through partnerships with producers and agencies; our pledge is to do that, across the United States.

In addition, our highly committed leadership team has extensive experience in Washington, D.C. and continuously monitors activity, providing input and education to legislative members, along with farmers and agents, on important policy issues.

We are proud to help American farmers feed the world through the supplemental safeguard of crop insurance.

Our team says it best!

OUR PRODUCTS

Livestock

Buying a livestock insurance policy is one risk management option. Producers should always carefully consider how a policy will work in conjunction with their other risk management strategies to ensure the best possible outcome.

Specialty Crops

Specialty crops include fruits and vegetables, tree nuts, dried fruits, and horticulture nursery crops (including floriculture). For a current list of specialty crops for which you can buy individual crop insurance, please visit us online.

Insurance Plans

The RMA provides policies for more than 100 crops, and those policies typically consist of general crop insurance provisions, specific crop provisions, policy endorsements and special provisions. The Advanced AgProtection team is ready and well-equipped with the knowledge and tools to assist producers in developing a good management plan!
